

Milton Creative Crafts 'Board Butter', Usage Advice

(also applicable to food boards finished with this product)

Usage: This product is intended for the protection and enhancement of wooden food serving and cutting boards. It is regarded as safe for use in contact with foodstuffs when used as described in the instructions below, however the product itself should not be eaten.

Ingredients:

Food grade mineral oil.

Food grade beeswax.

Food grade storage tins (aluminium).

Usage Instructions:

1. Ensure that the board to be treated is clean, dry and smooth.
2. Apply the product generously using a clean lint free cloth.
3. Leave for several hours for the product to penetrate the surface (ideally leave overnight).
4. Wipe off any excess product and then buff using a clean lint free cloth.
5. Repeat the process every 1-3 months or when the board appears dull.
6. Wash boards after each use and dry immediately or stand on edge to dry naturally in air.
7. To ensure hygiene, it may be advisable to wipe food boards with a food safe antibacterial product occasionally following the manufacturer's instructions.

Storage and Safety Considerations:

Store in a cool dry place with the lid securely tightened.

Do not eat the product – Keep away from children and pets.

We suggest disposing of any unused product either 12-months after purchase, 6-months after first opening, or if contamination occurs (ie with food product residue).
